## CORPORATE COMMITMENT

At BOOMSLANG we adhere to the principals that our services ought to be utilised in a sound and ethical business practice that allows us to deliver without compromising the quality of service to our clients. In our business customer care comes first as we value their suggestions and contributions and also take time to listen to them. We commit ourselves to the creation and maintenance of true partnerships with our clients, shareholders and employees in order to satisfy the mutual desire for a balanced environment based on a win/win situation. BOOMSLANG focuses on the implementation of innovative, practical and customer sensitive packages. We will defend without exception the values of honesty, integrity, professionalism and value- creation in our company.

# BOOMSLANG BACKGROUND

BOOMSLANG LOGISTICS is an affiliated company of OSPREA Logistics International. Boomslang is a multifaceted vehicle manufacturer and logistics provider, specialising in peacekeeping support operations and expeditionary efforts in austere and conflict areas. A leading global vehicle support provider, Boomslang creates bespoke and quality-controlled vehicle fleet solutions throughout Africa.

A leading operator in international and regional efforts in peace, security, and development, Boomslang produces bespoke vehicle solutions, supplies mission critical equipment, and deploys professional service providers worldwide. Boomslang has served as a primary manufacturer, trainer, and supporter of armoured, military, air fire fighting and handling equipment and commercial vehicles for national police, defence forces, and peacekeeping missions throughout Africa.

Headquartered in Dubai, UAE. With regional offices in Cape Town, South Africa, and operation facilities in Pretoria, and currently in Harare, Zimbabwe. Boomslang has focussed primarily on African defence and peacekeeping efforts in coordination with national government and international institutions.

# CORPORATE VALUES

## OUR MISSION

By providing the best services that do not compromise the safety and travel of our customers lives, and systems implementation of measures to safeguard and ensure these values are translated practically, thereby maximising corporate efficiency.
